WEATHER:

NWS Fire Weather Outlook Valid: 7AM 4/10 to 7AM 4/11.

Day 1 Fire Weather Outlook: CRITICAL FIRE WEATHER AREA FOR PORTIONS OF THE CENTRAL AND SOUTHERN HIGH PLAINS

Synopsis

A low amplitude shortwave trough across the central Rockies is forecast to move eastward across the Great Plains and reach the Upper Midwest late this evening. Two areas of low pressure, with the latter in the lee of the southern Rockies, will intensify, supporting strong westerly winds across the Rockies and southern High Plains. Dry surface conditions and the strong winds beneath the trough will support Critical fire weather conditions across the central and southern High Plains.

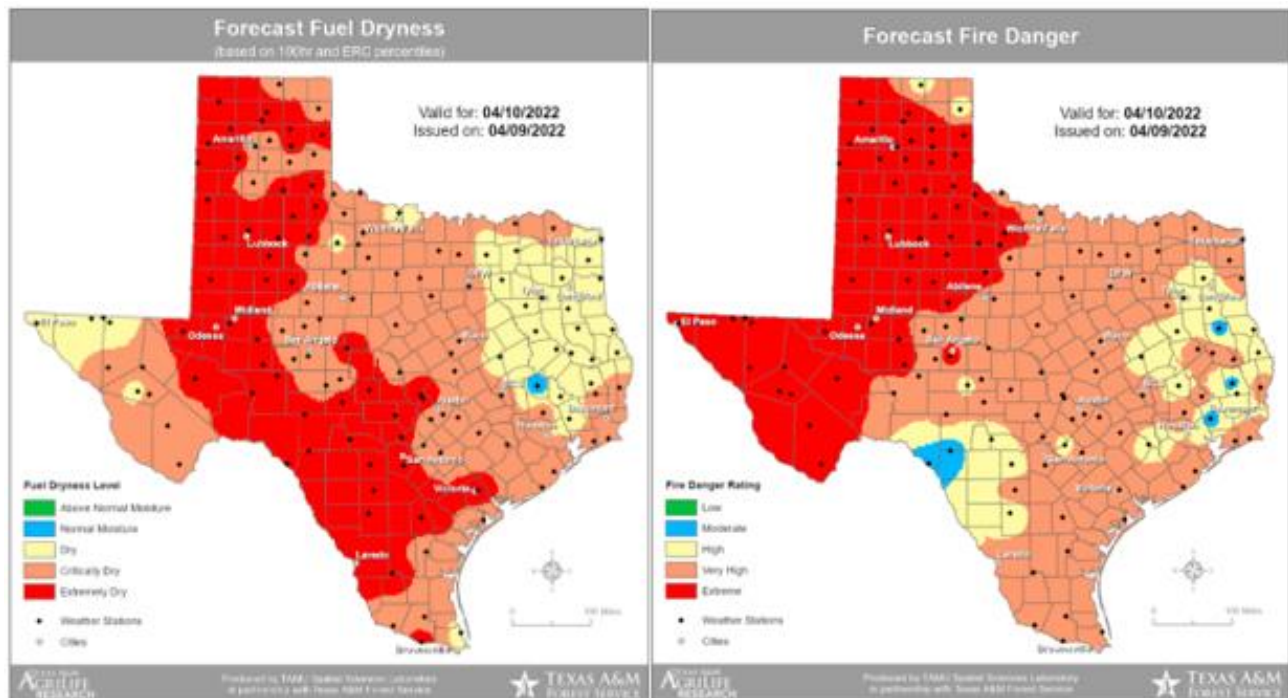

Central and southern High Plains

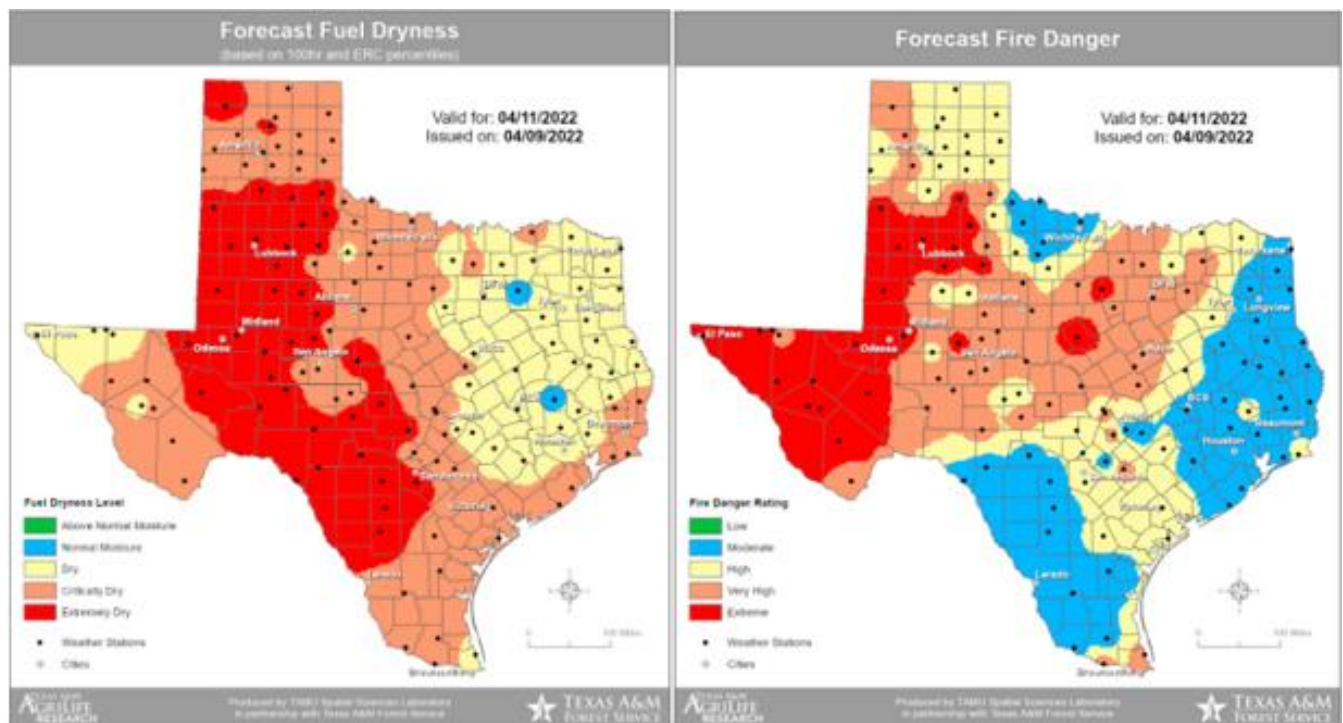

As the mid-level trough ejects eastward out of the central Rockies this morning strong mid-level flow will overspread the central and southern High Plains. A sub 1000 mb lee low will shift southeastward across CO and into the OK/TX Panhandles. Strong west to east pressure gradients bolstered by the mid-level flow at the base of the trough will support robust downslope winds of 25-30 mph across much of the Plains. Locally strong winds are expected beneath the trough and behind a cold

front moving south from the central Rockies into the High Plains where a late season downslope winds storm is expected to develop.

Warm temperatures and adiabatic downslope flow will support an extremely dry airmass with widespread RH values below 10%. Hi-res guidance suggests that locally stronger flow in the immediate lee of the southern Rockies and beneath a pronounced thermal ridge may also allow for local RH values to fall below 5% in spots. The combination of strong surface winds and extremely dry conditions will support widespread Critical fire weather conditions from eastern NM, along the front range of CO, into western portions of TX and OK. Volatile fuels remain in place with ERC values in the 90th+ percentile for nearly all of the southern/central High Plains. With preceding days showing above normal fire activity, widespread Critical fire weather conditions are expected.

Texas A&M Forest Service (TAMFS) – Predictive Services:

OPERATIONAL PRIORITIES:

1. Protect life and property.
2. Support rapid & effective response and recovery operations.
3. Collect and disseminate accurate incident information to improve decision-making.

RESPONDING STATE AGENCIES/ORGANIZATIONS REPORTS

Texas Division of Emergency Management (TDEM) – Regional staff have been deployed to impacted areas to assist local officials in damage assessment and identification of needs. The SOC continues to facilitate information sharing and the coordination of response and recovery operations.

TDEM Communications Coordination Group (CCG): Communications platforms are being identified for possible support if required.

TDEM Disaster Recovery Task Force (DRTF): DRTF HQ staff continue to support mass care at the SOC and actively monitoring the weather situation. DRTF regional staff continue to support local jurisdictions affected by wildfires with damage assessments and organizing VOAD support.

TDEM Mass Care: State partners are supporting local jurisdictions from the wildfires.

TDEM State Voluntary Agency Liaison (VAL): Disaster non-profits and Voluntary Organizations Active in Disasters are actively deployed and supporting jurisdictions in TDEM Regions 1, 2, 5 and 6. Planning meetings between local jurisdictions and disaster nonprofits for establishing Multi Agency Resource Centers are ongoing.

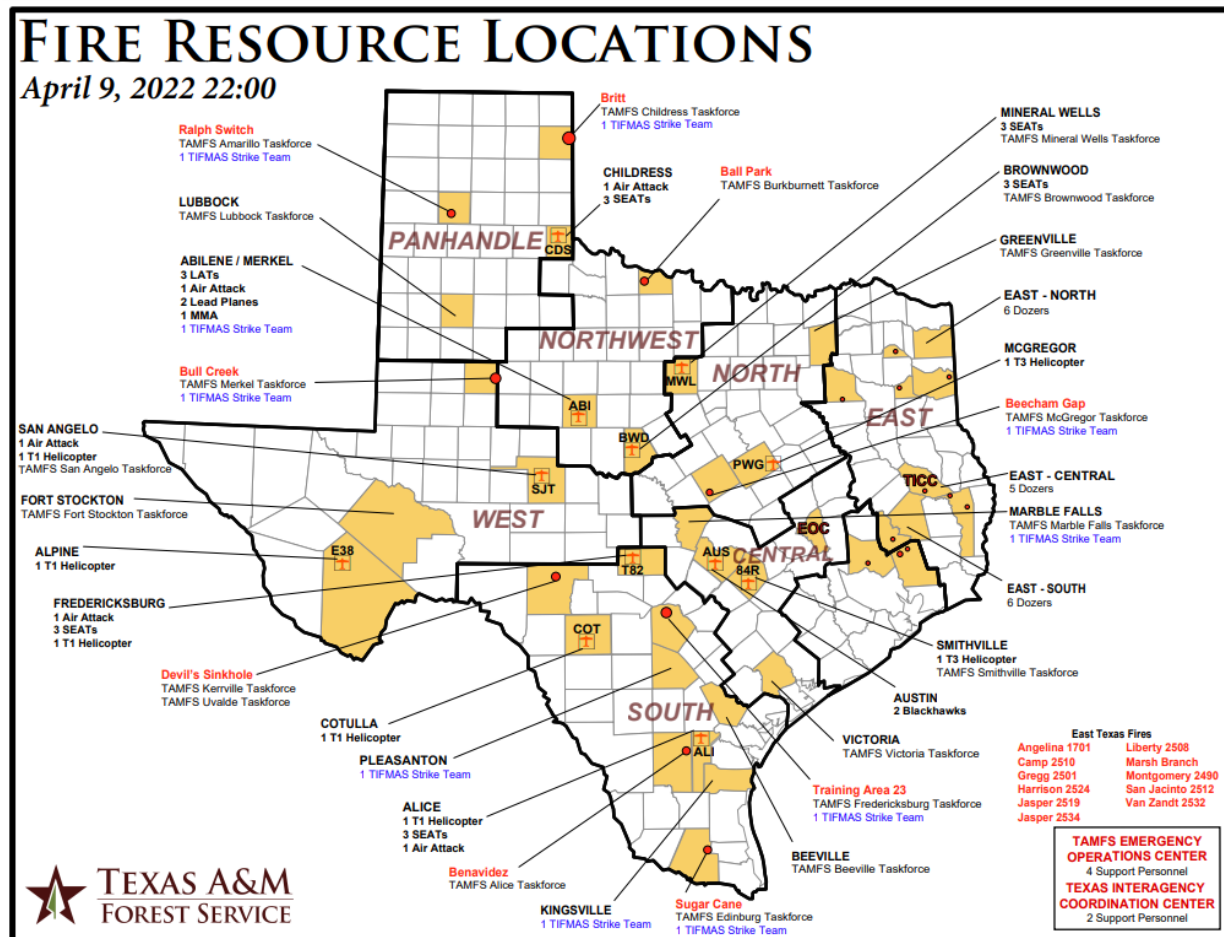

Texas Emergency Management Assistance Team (TEMAT):

The DRTF HQ staff continue to support mass care at the SOC. DRTF regional staff continue to support local jurisdictions affected by wildfires with damage assessments and organizing VOAD support.

Texas A&M Agrilife Extension Service (Agrilife): AgriLife continues to maintain situational awareness of wildfire incidents across the state.

Texas A&M Engineering Extension Service (TEEX)/Texas A&M Public Works Response Team (TX-PWRT): TEEX/TX-PWRT personnel managing ESF 3 from the Remote SOC in Austin.

Texas A&M Forest Service (TAMFS): TAMFS received 17 new requests for assistance with fire suppression operations on Saturday, April 9. Incident Updates can be found here: <https://inciweb.nwcg.gov/>.

Public Utility Commission of Texas (PUC): The PUC continues to provide a liaison to the SOC and is monitoring for any outages or other issues with electricity providers. Restoring service where practical behind the fire(s).

Railroad Commission of Texas (RRC): The RRC will continue to work with natural gas service providers throughout this event.

Texas Animal Health Commission (TAHC): TAHC continues to maintain situational awareness.

Texas Commission on Environmental Quality (TCEQ): TCEQ has staff available to assist local governments with any air/water/waste related issues including drinking water/wastewater issues and/or emergency response activities.

Texas Department of Agriculture (TDA): TDA continues to staff the Remote SOC as needed as part of the ESF-11 Team. STAR Funds accepting donations and requests for financial assistance.

Texas Department of State Health Services (DSHS) – Emergency Medical Task Force (EMTF): Three Wildland Fire Support (WLFS) Packages are on standby from EMTF's 1, 2, 7, 8, 9 & 11. WLFS Packages are on awareness from EMTF's 4, & 6.

Texas Department of Transportation (TxDOT): TxDOT is staffing the remote SOC.

Texas Department of Public Safety (TXDPS): TXDPS continues to staff the remote SOC to maintain situational awareness.

Texas Military Department (TMD): TMD continues supporting TAMFS in suppressing wildland fires in Texas.

Texas Parks and Wildlife Department (TPWD): TPWD has been tasked to provide two firefighting brush trucks.

FINAL COMMENTS: The State Operations Center (SOC) remains at Level II (Escalated Response Conditions) for COVID-19 pandemic response with additional staffing for Wildfire Outbreak response and recovery. The Texas Division of Emergency Management (TDEM) continues to monitor these situations and will provide additional situation reports as needed.

The four levels of SOC activation are:

Level I	(Emergency Conditions)
Level II	(Escalated Response Conditions)
Level III	(Increased Readiness Conditions)
Level IV	(Normal Conditions)
